How to contact the author if you get confused or found any error in any of the topics related to this book?

We have put out heart and soul to make this book as error free as possible. However, by virtue of being a human, mistakes are inevitable. We heartily request our readers to let us know about any error if found. We are requesting you to contact the author because you readers are the only source who could mark the error or any fault. Any suggestion regarding the improvement of this book is highly appreciated and welcomed.
